**The label**

**Several layers.  
Many functions.**

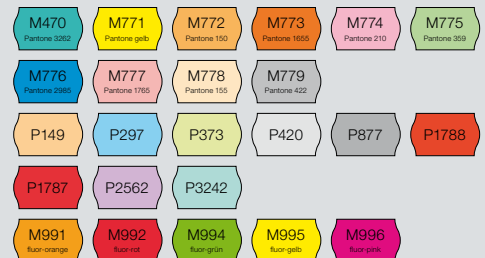

**Meto** labels provide for fast, individual and flexible labelling.

**Effective:** Labels enhance advertising effects – with campaign references or your logo, for example.

**Secure:** Perforations or cuts to prevent fraud. Relax cuts ensure

optimum matching with the substrate. Various materials (paper, plastic) are available in a host of colours and eye-catching fluorescent variants.

These are the standard colours for your individual pre-print:

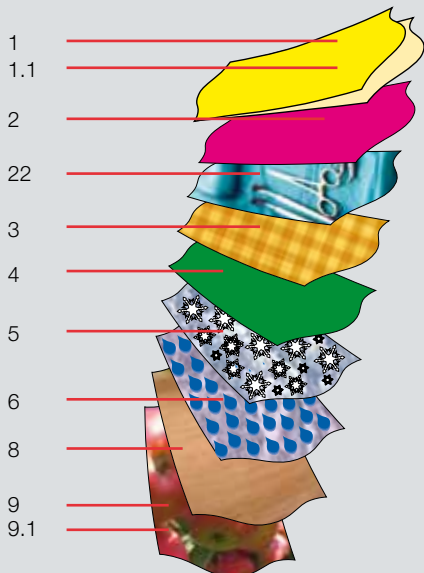

We will be pleased to produce your pre-print label to your individual specifications.

# The adhesives.

# Reliable identification.

**Variable:** Weather-proof, water-removable or permanent – the **Meto** adhesives come in 11 variants to guarantee optimum adhesion on a broad variety of substrates.

- Adhesive 1** Removable, partly gummed
- Adhesive 1.1** Removable, fully gummed
- Adhesive 2** Permanent Standard
- Adhesive 22** Permanent Steri, special gum for sterilisation labels
- Adhesive 3** Permanent Soft, textile application (for light fabrics and lining materials)
- Adhesive 4** Permanent Plus, stronger adhesive effect than Adhesive 2
- Adhesive 5** Permanent Cool, for cooling and deep-freeze applications
- Adhesive 6** Permanent Special, water-removable
- Adhesive 8** Permanent Super, water-resistant, weather-proof, strong adhesive effect (for plastic labels)
- Adhesive 9** Permanent Food, for direct contact with slightly greasy foods
- Adhesive 9.1** Permanent Food, for direct contact with slightly greasy or waxed foods

We also offer labels which dissolve under the influence of water.

We offer label solutions for the precise identification of your products to facilitate the control of incoming and outgoing goods or for exact marking from production through to quality management. Solutions are also available for process control purposes in the field of medical sterilisation (steam, ethylene oxide, gamma).

## Value-added labels.

**Meto** promotion labels up the profile of your offerings and support you in

- labelling reduced items
- promoting new products
- marking promotion articles
- prompting impulse purchases

We also produce promotion labels to order.

Advertise your product or service.

**Advertising labels** from **Meto** serve to embellish or identify give-aways and highlight your name.

Product range – Handlabellers

## Pricing and labelling in original Meto quality

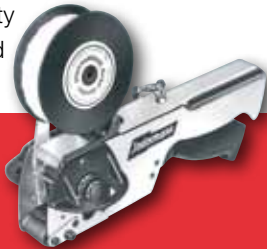

for retailers, service providers and industry

**METO**<sup>®</sup>  
A DIVISION OF **Checkpoint**

## Innovation is our tradition

Innovation is all part of our company traditions. Products bearing the **Meto** brand name have been available since 1918. The first handlabeller from the company revolutionised pricing operations in 1959. This marked the first in a long line of products which were to have a lasting influence on the market, such as the first pre-print labels with space for printing names and advertising. Or the label with undulating edge featuring a security cut to prevent so-called „repricing“.

### Industry-specific handlabellers

**Meto** offers special handlabellers and labels for various applications: For medical labelling or for weatherproof identification outdoors, for example.

**Meto** was taken over by Checkpoint in 1999. The **Meto** brand was retained as a division of Checkpoint offering the customary high quality. As an internationally operative group we are a global leader in identification, labelling, article surveillance and sales promotion systems. We offer integrated system solutions and first-class services for a smooth flow of goods throughout the supply chain. We are a competent partner to retail, industry and the service sector.

### Identification and security in a single step

Clear identification and labelling of your items, advertising messages or an individual pre-print on the label combined with effective electronic article surveillance systems in radio-frequency or electromagnetic technology. The **Meto** ProLine security labellers apply RF and EM labels in various formats.
